Emerging Leaders in Transportation

May 2018
C2SMART Center is a USDOT Tier 1 University Transportation Center taking on some of today’s most pressing urban mobility challenges. Using cities as living laboratories, the center examines transportation problems and field tests novel solutions that draw on unprecedented recent advances in communication and smart technologies. Its research activities are focused on three key areas: Urban Mobility and Connected Citizens; Urban Analytics for Smart Cities; and Resilient, Secure, and Smart Transportation Infrastructure.

Some of the key areas C2SMART is focusing on include:

**Disruptive Technologies**
We are developing innovative solutions that focus on emerging disruptive technologies and their impacts on transportation systems. Our aim is to accelerate technology transfer from the research phase to the real world.

**Unconventional Big Data Applications**
C2SMART is working to make it possible to safely share data from field tests and non-traditional sensing technologies so that decision-makers can address a wide range of urban mobility problems with the best information available to them.

**Impactful Engagement**
The center aims to overcome institutional barriers to innovation and hear and meet the needs of city and state stakeholders, including government agencies, policy makers, the private sector, non-profit organizations, and entrepreneurs.

**Forward-thinking Training and Development**
As an academic institution, we are dedicated to training the workforce of tomorrow to deal with new mobility problems in ways that are not covered in existing transportation curricula.

Led by the New York University Tandon School of Engineering, C2SMART is a consortium of five leading research universities, including Rutgers University, University of Washington, University of Texas at El Paso, and The City College of New York.

Executive Summary

The NYU Rudin Center annually hosts the Emerging Leaders in Transportation program, which develops early-career transportation professionals to develop and promote innovations within their organization. Emerging Leaders in Transportation provides participants with a career development platform for networking, sharing ideas and gaining insight from industry leaders. The program aims to infuse the industry with new ideas surrounding operations, technology and management.

By teaching participants to incorporate innovation into their workplaces and build long-term technology plans, the program contributes directly to one of C2SMART’s core goals: providing forward-thinking training and equipping the transportation workforce to deal with new mobility problems. Additionally, it provides an opportunity to network and develop communication skills, strengthening future leaders of transportation agencies and companies.

The NYU Rudin Center initiated the Emerging Leaders program in 2014 after recognizing a need for early-career professionals to have their ideas heard in the transportation industry. An absence of training programs for this career sector was noted. The Rudin Center saw an opportunity to equip early-career professionals with the communications skills and network to promote their ideas. In addition, the Rudin Center aims to diversify industry leadership, and works to include a set of Emerging Leaders that represent a mix of backgrounds and genders.

The Rudin Center held the fourth edition of the program on December 7th and 8th, 2017. This fourth class of Leaders was composed of a diverse set of professionals with planning, policy, budget and teaching roles at both local and far-flung transportation organizations. The 2017 program consisted of a four-part workshop series addressing policy issues, leadership skills and technical innovation. This report summarizes the participants, program and feedback on the Emerging Leaders program from 2017.

Participants

Participants in the 2017 class included 25 early-career professionals with less than 10 years of experience in the transportation industry. The participants were selected from a pool of 62 applicants. They were selected for their evident promise in the industry and, as a group, diversity of interest areas, workplaces and sectors, gender and ethnicity. All participants accepted through the application process participated fully in the program.

The list of participants is below; the flyer released to the public with participant profiles is found on the following page.

Meet the 2017 class:

- Alexandra Aiello, MTA Bridges and Tunnels
- Camilla Siggaard Andersen, Gehl
- Nicole Badstuber, University College London
- Sara Barz, San Francisco Metropolitan Transportation Commission
- Sasha Berger, NACTO
- Diego Correa-Barahona, C2SMART
- Cory Epstein, NYC Council Member Dan Garodnick
- Krzysztof (Chris) Haranczyk, NYC & Company
- Laura Jardieanu, MTA New York City Transit
- Khari Linton, NYC Office of Management and Budget
- Elad Mokady, Sam Schwartz
- Russell Murphy, Risa Heller Communications
- Neil Padukone, NYC Mayor's Office of Media & Entertainment
- Louis Pappas, Via Transportation
- Nicole Payne, NACTO
- David Perlmutter, Nelson\Nygaard Consulting Associates
- Asheque Rahman, NYC Department of Transportation
- Lauren Rennée, BFJ Planning
- Azikiwe Rich, NYC Department of Transportation
- Hayley Richardson, Transit Center
- Sandy Johnston, Central Transportation Planning
- Boris Suchkov, MTA New York City Transit
- Matt Tinoco, Mother Jones/Curbed
- Alia Verloes, 6t-Bureau de recherche
- Christina Yoo, NYC Department of Transportation
Emerging Leaders in Transportation 2017

Figure 1: Class of 2017 Emerging Leaders

Participants

Alexandra Aciello is a Strategic Analyst at MTA Bridges and Tunnels, specializing in GIS, and an Emergency Department volunteer at NYU Langone.

Cory Epstein is an optimistic, progressive communicator and strategist working to improve the lives of New Yorkers through smart public policy.

Camilla Sigggaard Andersen (Gohli) is an urban planner with a focus on creating technology-enhanced cities.

Keyson de (Chris) Harmsen is a research analyst at NYC & Company, exploring visitation metrics and transportation infrastructure.

Louis Pappas works with cities and transit agencies to create dynamic microtransit ecosystems for Via Transportation Center.

Neil Padukone Director of New Initiatives at the Mayor’s Office of Media and Entertainment, and a US DOT University Transportation Center scholar.

Alikaye Rich Director of Performance Analytics and Reporting at NYC DOT, a data analyst and travel agent for fans of all things life.

Hayley Richardson (Transit Center) is a designer and strategic communicator whose work to make cities more delightful, equitable, and mobile.

Sandy Johnston (Central Transportation Planning) is a professional transportation planner, technical writer, and advocate for transit and sustainable transportation and urbanism.

Boris Suchkov (MTA NYC) is a transportation planning professional with experience in project management, big data, analytics, and public transit planning.

Matt Timco is a California journalist who regularly writes about political equity in transportation and other areas, for outlets like Curbed and Mother Jones.

Alia Verfoes (6e) is a bike enthusiast convinced that the future of urban transport will be led by shared mobility and inclusive transport modes.

Christina You is an Analyst at the New York City Department of Transportation’s Sidewalk Program, with a background in Architecture and Urban Design.

Nicole Badger is a transport policy researcher, writer, and podcast editor with a background in government policy advice and academic research.

Laura Juridcs is an Environmental Analyst for MTA’s Department of Capital Program Management, handling Hurricane Sandy projects.

Nicole Payne (NACTO) is a Maryland transplant dedicated to improving mobility in underserved communities.

David Perlmutte (Nelson/Netgaard) is a transportation planner and analyst, working to improve and expand access to equitable, sustainable mobility options.

Sasha Berger is the Program Coordinator at NACTO and works within the intersections of sustainability, equity, and transportation choice.

Khari Linton (NYC OMB) is a transportation professional in city government, interested in modernizing transportation networks to be more sustainable.

Elad Mokady (Sam Schwartz) is a geographer by nature and urban planner by training. Wannabe social network analyst for increasing balance and sustainability in urban transportation.

Bonnechah (Sam) Schwarez is a transportation planner and analyst, working to improve and expand access to equitable, sustainable mobility options.

Russell Murphy recently started working at Rice University in the Land Use and Real Estate practice.

Lauren Rennée is a Senior Transportation Planner at BFI Planning and a lead organizer of BikesNYC.

Sarah Kaufman, Assistant Director of the NYU Rudin Center for Transportation, is the program director of Emerging Leaders in Transportation.
The NYU Rudin Center hosted the Emerging Leaders in Transportation program on December 7th and 8th at our offices in SoHo, New York City. The 2017 class of Leaders was composed of a diverse set of professionals with planning, policy, budget and teaching roles at both local and far-flung transportation organizations.

Day 1

The program’s first day began with group introductions and a discussion about professional goals.

Figure 2: Introduction on Day 1 by Sarah Kaufman, who directed the program

Jessica Robinson, Director of City Solutions at Ford Smart Mobility, kickstarted the conference with a Q&A session with Sarah Kaufman, NYU Rudin Center Assistant Director. Jessica shared her thoughts on the direction of future mobility, Ford’s role in taking the industry into its next phase and staying
informed about transportation trends during her travels. She pinpointed the importance of diversifying the transportation industry, especially in encouraging fellow female colleagues to ask questions even in larger group settings.

Figure 3: Jessica Robinson (center) and Matthew Raifman (left), Ford Smart Mobility

The following session, titled “Building Your Influence Within Your Organization,” was led by New York City Department of Transportation Chief of Staff Emily Gallo. She offered valuable advice about growing one’s areas of responsibility with an eye to the organization’s larger goals, tips for interviewing, and moving beyond stalled projects.
Figure 4: Emily Gallo, Chief of Staff of NYC Department of Transportation (center), leads “Building Your Influence Within Your Organization”
Following lunch, the Emerging Leaders toured the NYC Department of Transportation’s Traffic Management Facility. The group learned about coordinating traffic data with video observations, rerouting around disruptions, and coordination with other city and regional agencies.

**Figure 5: Emerging Leaders touring the NYC DOT Traffic Management Facility**

Returning to Manhattan, the group took a brief tour of Grand Central, enjoying its lesser-known locations, like the whispering gallery. The day came to a close with a networking reception with program alumni at Eamonn’s Bar and Grill. They discussed the major topics of the day, including congestion pricing, subway revitalization and workplace culture.
Figure 6: Experiencing the Whispering Wall at Grand Central Terminal
Figure 7: Networking reception with program alumni
Day two began with a panel discussion on innovation in mobility, featuring:

- Chris Whong, Director, NYC Planning Labs
- Manasvi Menon, Senior Strategic Consultant, Intersection
- Sami Naim, Public Policy Manager, Lyft
- John Raskin, Executive Director, Riders Alliance

The group discussed the role of the private sector, equity in public services, improving public communications, and extending hobbies into the workplace.

Figure 8: Innovation in Mobility panel
Later that morning, a keynote speech was delivered by Meera Joshi, NYC Taxi & Limousine Commission Commissioner. She spoke about her career and timely issues at the TLC, including access for riders with disabilities, competition from private ride-hailing providers, and leadership at city agencies. Commissioner Joshi relayed sound advice as she encouraged Emerging Leaders to surround themselves with smart people and stick to their moral code as they continue to progress in their careers.

Figure 9: Commissioner Meera Joshi, NYC Taxi and Limousine Commissioner

It was a pleasure hosting all of the participants and special guest speakers here at the NYU Rudin Center. We hope that the program helped to inspire great ideas for the future of transit and build a stronger network of leaders in transportation.
Following the Emerging Leaders in Transportation Program, the NYU Rudin Center for Transportation requested feedback from participants. Feedback was received through an anonymous online survey. Fourteen participants (56%) responded.

Overall Satisfaction

Please rate your overall experience with the Emerging Leaders program on a scale of 1-5.

Recommending the Program

Would you recommend the Emerging Leaders program to others?
